

Saab Select, our range in **brakes**

Brakes are a natural high wearing item, being used repeatedly on every drive!

And it can be easy to think that pads and discs are all alike – but they are not!

Saab Select – tested for built-in quality and reliability

Brake performance and reliability is a must have. And in today's world so too is affordability and value. To offer the best of both, we have worked with two established European manufacturers to offer discs and pads that give you the quality of Original at the value price of aftermarket.

Direct delivery

Ordering is easy and we can deliver directly to your door or local workshop. Simply shop on our website, or give us a call on the number below.

Saab Select Brakes

Carefully chosen and tested by our engineers in Sweden. So good, we've literally put the Saab name to them!
